

building Augusta back *together*

Our Goal:

To fill the gaps between what insurance and the government will provide in hurricane cleanup efforts. Primary focus is on the elderly and those who cannot afford standard clean up methods. This service will be free of charge.

Scope of Work:

1. Debris removal and tree removal to "Right of Way" for FEMA to pick up
2. Targeted and specific emergency roof repair to those who are underinsured, without insurance, or long-term repair delays.
3. Immediate financial assistance for those in extreme need.

WE WILL NOT BE REMOVING TREES FROM ROOFTOPS OR STRUCTURES.

Who We Are:

Local and national general contractors, site contractors, and business leaders who want to help our community by providing equipment, personnel, and resources.

The Process:

- Segment the worst hit regions into manageable areas.
- Identify neighborhood leaders to find and prioritize need.
- Area leaders will send information and need requests to augustacleanup.com, then the list will be provided to clean up and repair crews for completion.
- Financial needs will be evaluated, and money will be distributed from the Home Builders Association Greater Aiken-Augusta Region's Builder Community Fund.
